## Data set Contents

The data set consists of:

- 4 tabular qualitative files saved in ODS format  
PLUS\_5\_PLUS. WP2-WP3-WP7 Mapping Stakeholders\_Berlin\_20220524  
PLUS\_5\_PLUS. WP2-WP3-WP7 Mapping Stakeholders\_Bologna\_20220524  
PLUS\_5\_PLUS. WP2-WP3-WP7 Mapping Stakeholders\_Mapping\_20220524  
PLUS\_5\_PLUS. WP2-WP3-WP7 Mapping Stakeholders\_Tallinn\_20220524
- 1 textual file saved in PDF format  
PLUS\_5\_PLUS. WP2-WP3-WP7 Mapping Stakeholders\_README\_20220524

## Data set Documentation

This dataset contains the data produced during PLUS background research that involved WPs 2, 3 and 7. This research included a mapping of local stakeholders for each investigated city and some preliminary qualitative interviews to frame the expansion of platform economy at city level.

Specifically, the dataset contains:

- 1) the document "PLUS\_5\_PLUS. WP2-WP3-WP7 Mapping Stakeholders\_Mapping\_20220524" including one sheet for each city. Each sheet contains one table, in which the experts, their role and their area and platform of expertise are listed. The table serves the purpose of mapping the most important stakeholders in the field of platform labour in each city.
- 2) three documents "PLUS\_5\_PLUS. WP2-WP3-WP7 Mapping Stakeholders\_CITYNAME\_20220524" for Berlin, Bologna, and Tallinn, including the transcriptions of the expert interviews, the summary of the interviews or a list of best quotations for each interview. These give an overview on the main empirical highlights from the background research carried out in each city.
