Data set documentation

Abstract

The data set provides a collection of 69 records related to the case studies investigated by the CONSOLE Consortium partners. These records illustrate a range of examples of innovative contract solutions developed beyond the CONSOLE project case studies. Specifically, the data set provides a list of references to documents and their description according to the CONSOLE WP2 guidelines. The list includes a brief description and the link to the documents. The documents are available online except for scientific papers that are not open access.

Content of the file

The file **CONSOLE_WP2_Task2.3_Analysis of successful experiences outside Europe_2022.10.19_V06.xlsx** contains data about examples of innovative contract solutions developed beyond the CONSOLE project case studies. In particular, **sheet "Feuil1"** contains the collected references:

each row is a record (a document) that is described according to the variables in columns. In the columns are reported the following information: *Id number, document type, link/ source, country, brief description, interest for CONSOLE, contract type (cfr. CONSOLE D2.4 nomenclature), secondary contract type involved, AECPGs addressed, forestry and farming system, contract partnership, monitoring type, models for monitoring*.
