Data set Contents

The data set consists of:

- 8 spreadsheets containing 2 sheets each (the bibliographies extracted from Scopus and the search inputs strings)
 - “PLUS_4_PLUS.WP2 Literature review_Digital Labour_20222804_v2”
 - “PLUS_4_PLUS.WP2 Literature review_Gender and Platforms_20222804_v2”
 - “PLUS_4_PLUS.WP2 Literature review_Gig economy_20222804_v2”
 - “PLUS_4_PLUS.WP2 Literature review_Platform Labour Process_20222804_v2”
 - “PLUS_4_PLUS.WP2 Literature review_Platform_20222804_v2”
 - “PLUS_4_PLUS.WP2 Literature review_Sharing Economy_20222804_v2”
 - “PLUS_4_PLUS.WP2 Literature review_Smart City_20222804_v2”
 - “PLUS_4_PLUS.WP2 Literature review_Urban Entrepreneur_20222804_v2”
- A ODS document (specifying authors, title, year, source, doi, publication typology for each reference) with a literature on platform economy
 - “PLUS_4_PLUS.WP2 Literature review_References_20222804_v2”
- A Readme File
 - “PLUS_4_PLUS.WP2 Literature review_README_20220804”

Description

The set contains materials produced for a literature review on platform economy implemented in WP2 of PLUS project.

First, we extracted main bibliography on 8 keywords for platform economy:

- a. Digital labour
- b. Gender platform labour
- c. Gig economy
- d. Platform labour process
- e. Platform
- f. Sharing Economy
- g. Smart City
- h. Urban entrepreneur

The extraction of bibliographies for each keyword has been done with Scopus search engine. For the materials there is the permission to save and print the research contribution for private use, research and teaching, according to Scopus policies.

The specificities of the researches can be taken from the search input strings.

Then we selected most interesting references to prepare a final overall bibliography.
