Data set Contents

The data set consists of:

- 3 tabular quantitative file saved in .csv format
 - PLUS_9_PLUS.WP3 Urban governance models for the platform economy_info_20220109
 - PLUS_9_PLUS.WP3 Urban governance models for the platform economy_metadata_20220109
 - PLUS_9_PLUS.WP3 Urban governance models for the platform economy_data_20220109
- 1 README file in PDF format
“PLUS_9_PLUS.WP3 Urban governance models for the platform economy_README_20220503”

Data set Documentation

The dataset aims to framing the different policies of governance of platform economy at urban level. It includes data related to at least 7 case studies of urban governance of platform economy, one for each of the 7 cities involved in PLUS project (Berlin, Bologna, Barcelona, Lisbon, London, Paris, Tallin). The dataset is composed exclusively from secondary and non-personal data and includes:

- open data released on institutional websites of the municipal authorities involved in each case study;
- open data released on institutional websites of the other institutions and actors involved in each case study;
- Eurostat and OECD open data from online databases;
- open data indexes related to the measurement of digital and social innovation, developed by international organizations and available in online databases, such as the EGOV Benchmark, European Digital Social Innovation Index (EDSII) and the Globalization and World Cities (GaWC);
- data from existing scientific articles and grey literature (e.g. reports from other research projects)

Content of the files

- file PLUS_9_PLUS.WP3 Urban governance models for the platform economy_info_20220109 includes identification info for the dataset
- file PLUS_9_PLUS.WP3 Urban governance models for the platform economy_metadata_20220109 includes the detailed list of metadata used for the dataset, the detailed list of sources and the codebook of variables
- file PLUS_9_PLUS.WP3 Urban governance models for the platform economy_data_20220109 includes the actual data related to the seven city of plus, organized according to the “metadata” file
